THE PAPYRUS

IS AN EXTRAORDINARY INVENTION FOR printing copies by the thousands from a single autograph writing or drawing. From one writing by this process a thousand permanent fac similes or impressions of circulars, price lists, specifications, examination papers, assessment notices, etc., may be printed in an ordinary copying press, upon any description of paper. Copies may be taken direct from the writing without any of the usual operations of inking, rolling, transferring or typesetting. A proof impression may be produced within five minutes after a manuscript has been completed, and be afterwards multiplied at the rate of five hundred an hour, at an infinitesimal cost.

One Thousand Copies

May be produced from a single sheet of Papyrus Paper, and a single application of color, at an expense of four cents. It possesses over printing the advantages of an Autograph Letter, besides admitting of illustrations without the expense of wood cuts. It allows autograph letters to pass through the mail as third class matter. Its invaluable to any business. It can be seen in operation at the office of the agent for Oregon.

SAN FRANCISCO TESTIMONIALS.
After due experience, we feel warranted in recommending it. CENTRAL PACIFIC R. R. CO.
T. N. GOODMAN.

We find it invaluable in our business and could hardly do without it. BAKER & HAMILTON.

It greatly facilitates the present methods of doing business. JAMES COEY, Postmaster.

It not only fulfills all its promises, but is working a revolution in the methods and efficiency in advertising. A. ROMAN & CO.

We take pleasure in certifying to its value in our business. Were its merits understood, it would be in every counting house. SHERMAN & HYDE.

We find it a very great convenience both in the rapidity, number and ease with which fac similes may be produced. W. T. COLEMAN & CO.

We have reduced by its aid half our former printer's bills. It fully realizes our expectations.
BRADLEY & RULOFSON.

We can safely say that in our business it is equivalent to at least three men. HUBBARD BROS.

Morning Oregonian.

VOL. XVI.—NO. 114. PORTLAND, OREGON: SATURDAY, JUNE 16, 1877. PRICE—TEN CENTS.

GENERAL NEWS.

(BY TELEGRAPH TO THE OREGONIAN.)

Union Leaguers.

NEW YORK, June 14.—At a meeting of the Union League to-night resolutions were passed heartily supporting the administration in its efforts to protect American citizens at home and abroad, emancipate the people of the South from the domination of office-holders and effect reform in the civil service, restore specie payments, encourage domestic and foreign commerce, support President Hayes and his Cabinet, were fully indorsed. No charge was made against any one. The meeting was largely attended with enthusiastic.

Fire in Newark.

NEW YORK, June 14.—A special from Newark says: A fire broke out to-day in the large four-story building occupied by Ballantine & Co., wholesale grocers, and dealers of San Francisco, announced that they would resume business at a time having been unable to do business for the past three years that his death had become necessary. The firm granted Kline leave of absence and Bookkeeper Dahlman was sent to relieve him. Shortly after Kline sailed for Europe Dahlman, in examining the books in the office in this city, 34 Beaver street, became convinced that Kline had been irregular in his mode of doing business and seriously compromised the firm. Dahlman was telegraphed to, and the state of affairs becoming known, Mayor of San Francisco, who had loaned the firm $30,000, procured an attachment and proceedings were begun in bankruptcy. Other creditors in San Francisco and this city afterward joined in the proceedings. It was discovered that Kline had absconded before his departure, and disposed of a large quantity of the firm's goods, which were sold readily, and he is indebted to the firm in the amount of $100,000. It is not known in what manner this money has been expended, but it is supposed to have been invested in profitable mining stocks, which it is said Kline took much money interest. Kline is about thirty years of age and is a native of Dahlman. He was taken into the firm about two years ago on account of his business abilities and placed in charge of the New York office. A telegram was received from him stating he is on his way to California, by rail it is asserted that he took up three cases of credit immediately after arriving in Europe.

Duel Under Discussion.

NEW YORK, June 15.—The Chicago special says Congressman Brentan has written a letter to the Chicago Times, which appears to-morrow, charging Lawrence Scheider's declination to accept a mission were largely involuntary. It was quietly and kindly requested that he resign while he was given other business relations were such that he could not leave the country. Brentan charges Schneider with swindling immigrant relatives out of property, and being guilty of other acts unfitting him for being a representative of the United States abroad.

Mormon Missionaries and Mormons.

NEW YORK, June 15.—The *Times* has the following: The steamer *Montana* took out for Europe eighteen elders of the Mormon church from Utah. No women or children accompanied them. At the dignified church in this city, 74 Fifth avenue, a number of the elders bade them farewell. Brigham Young, Jr., and Joseph F. Smith, two most conspicuous elders, were present, and although the people were told by the elder invited a few words to say on this occasion, the emigrants of the church at 8 Battery Place, Castle Garden. There was not a number of women present when the reporter called, and no children. The crowd were you of Brigham Young's followers, most of them foreigners. One of the elders, Young, is second lieutenant of artillery, now stationed at Willet's Point, Long Island, and Feramorz Young, a student of civil engineering at the Polytechnic Institute.

At Troy they came down to meet their brother Arts, who died on Sunday returned from a mission in Europe with Prof. Carrington. Mr. Sharp, family, quite numerous in the church, were well represented and conspicuous among them were Bishop Sharp and his son who is a student at Troy in the same class with Brigham Young's sons. Professor Carrington became spokesman for the brethren and said in alluding to the Mountain Meadow massacre, attempted to impress upon the reporter with the idea that the church is entirely innocent of it. Carrington has been Brigham Young's private secretary for twenty years, and claims to have full knowledge of all the prophet's private and public business affairs. His statements positively that Brigham knew not one thing whatever of the massacre until long after it had occurred. From Prof. Carrington's statement, it appears that Mormonism is greatly on the decline in all the British States. Great Britain at one time numbered 60,000 disciples to Brigham Young. Now the Mormons in all Europe do not number more than 11,000 souls.

Fire at Pittsburgh.

PITTSBURGH, June 15.—The extensive works of the Jacobus & Sinnick Manufacturing Co. were destroyed by fire this morning. Loss estimated at $125,000; insured for $8,000.

The Herald on Tilden's Speech.

NEW YORK, June 15.—The *Herald's* leader says that Tilden's recent speech, bewailing his loss of the presidential chair, not only killed himself, but the Democratic party.

Condition of Business.

A careful comparison of the exchanges at eleven leading commercial centres for the first week of June fails to indicate any substantial improvement in business measured by values paid. The aggregate increase, as compared with the corresponding week of last year, is 8 3 10ths per cent., but outside of New York other stock transactions chiefly account for the increase. There was an aggregate decline of 3 7-10ths. A great improvement appears at Boston, Pittsburgh, Louisville and St. Louis.

Tweed and Why he is not Released.

NEW YORK, June 15.—Tweed's friends are much discouraged by the failure of the authorities to accept the State's evidence against Ring associates and let him free. There is reason to believe that the failure was caused by counter evidence showing that much of Tweed's proffered testimony would be overwhelmed by rebutting evidence, also that he transferred to Europe the proceeds of a large amount of property which is still within his control and ought to be surrendered to the city from which it was plundered. It now appears that the imputations made against Senator Woodin were wholly false as regards the latter, but fruitfully applied to one Woodin and that Woodin's name was substituted only because he was larger game, and his destruction would therefore command a larger rate in calculating the price of Tweed's release. It is now said, privately, that Tweed can escape from his dangerous criminal indictment only by such liberal cash settlement of civil suits, as it is believed he still has means to make. Among the future probable developments, as alleged, is the fact that Oakey Hall's share of the ring spoils passed through the hands of Peter B. Sweeney's brother James, now deceased, upon whose estate the Sweeney settlement was made; also that about three-eighths of the $400,000, paid out of said estate, was the balance of Hall's share remaining in Sweeney's hands when he died. Those in position to know say Peter B. Sweeney's endorsement has not been found on a single check or other papers which are suspected of representing any part of the ring's financial transactions.

Hendricks' in 1880.

The movement to make Hendricks the next Democratic candidate for the Presidency is gathering considerable head. It is declared that Tilden's friends pledged Hendricks the next nomination before he agreed to accept the second place at the St. Louis convention. But Hendricks' friends think Tilden still in the field, unless the next Congress will take steps to seat him in Hayes' place, of which some agitators still muddy dream.

Fire.

DECATUR, Ala., June 15.—A fire at Hodge's Station yesterday destroyed a number of business houses; loss estimated at $37,000.

Four Persons Drowned.

BELVIDERE, N. J., June 15.—Yesterday afternoon a mill dam just above the town of Norwich suddenly broke, and precipitated a fishing party, consisting of ten persons, through the sluiceway. Mrs. Reamers and her daughter Julia Reamers, Miss Crowley and Thos. Pressler were drowned. The owners of the boat in which the party were, Mark Fisher and James Osweldt, were fatally injured by falling in the grinder of the mill, which was lying below the sluiceway.

Money and Stocks.

NEW YORK, June 15.—Silver bars, 124 greenbacks, 118 gold; silver coin, 2 discount; gold closed 105; money, 1@1½; governments, steady; stocks dull; the close when prices advanced 1 to 1 per cent. on entire list; Western Union, 60; Quicksilver, 13¾; Pacific Mail, 19¾; Mariposa, 2; Wells Fargo, 86; New York Central, 92¾; Erie 6; Panama, 95; Union Pacific, 60½; bonds, 108; Central Pacific bonds, 110.

Ostracism in the South.

CHICAGO, June 15.—The *Journal's* Washington special says Chief Justice Waite has just returned from South Carolina. He says during three weeks' stay in Charleston not a single social call was made on him or his daughter by the old ex rebel element. He was treated more like an outcast and criminal than a gentleman. His views as to South Carolina rebels having become thoroughly reconstructed and disposed to accept in good faith the situation have been materially modified. Judge Waite's friends here are indignant and the President and cabinet seem greatly astonished. His friends say he expresses the opinion that conviction should have followed the conclusive evidence as to the guilt of some of the Ellerton rioters. He was treated with marked respect by the citizens of Greensboro and Raleigh, North Carolina, where he held court.

The 4 Per Cent Bonds.

It is known the syndicate have expressed to Secretary Sherman the decided opinion that unless the administration takes a very strong stand regarding the repayment of the four per cents in gold and not silver the new loan will fail and might as well be withdrawn from the market. They say the secretary ought to act promptly; that though he did not formally approve assistant secretary French's opinion that bonds issued since the demonetization of silver must be paid in gold, that he gave his verbal assent to the same and directed assistant secretary McCormick to make the opinion.

A Noted Turfite.

CHICAGO, June 15.—Budd Doble with his stable, consisting of Goldsmith Maid, Volney and Bodine arrived here from San Francisco last night. The Maid is in good condition, and will soon be ready for the turf again. Doble will make two or more additions to his horses while here.

The Death Penalty.

DAYTON, O., June 15.—Henry Adams was hung to-day for the murder of Henry Mullharren, February 11, 1876.

NEW ORLEANS, June 15.—At 11 o'clock today, the following were executed by hanging in the parish prison yard in the presence of about 200 spectators: Adeline Eveque, colored, aged 29, who shot and killed Richard Turner February 6, 1876; George Morris, colored, age 25, for killing a woman named Sarah Jones, November 30, 1875; Joaquin Fiorenzo, a native of Phillipine Islands, age 35, for the murder of Marie Louise, colored, whom he stabbed to death with a shoemaker's knife, January 16, 1876.

ATLANTA, June 15.—Stephen Brinkly was hung at Newnan to-day for the murder of his wife nearly four years ago. His case has excited widespread interest. He has a brother in Memphis, a very wealthy broker and who has spent over $30,000 in the attempt to save him from the gallows. For the past two weeks the most extraordinary efforts have been made to secure executive clemency. Three governors—Stone of Mississippi and Governors Porter and Brown of Tennessee—have each sent papers to Gov. Colquitt asking for clemency. Gen. N. B. Forrest and Gen. W. H. Jackson, with whom Brinkly served during the war, wrote the governor saying they believed the condemned man was of unsound mind, and that he bore the reputation of being crazy during the war, being discharged from the army on that account. The governor refused to commute the sentence.

Greenbacks at Skowhegan.

SKOWHEGAN, Me., June 15.—The Greenback State Convention to-day was very largely attended. The platform demands the immediate repeal of the resumption act; that government supply the people with currency based on the faith and resources of the nation and adapted to the legitimate wants of business; that national bank notes be specially as practicable withdrawn and replaced by paper money directly issued by the government and made a full legal tender for all debts not otherwise specified, and made interchangeable with low interest bearing bonds; that the government remonetize silver; that the present bonded debt of the country be refunded as rapidly as possible into registered interchangeable bonds bearing a low rate of interest. Rev. H. E. Munson, of Skowhegan, was nominated for governor.

Millers' Convention.

BUFFALO, June 15.—The Millers' National Association appointed a committee to inquire into the expediency of establishing a college under the direction of the association for the education of Millers. The president elected for the ensuing year was Geo. Blair, of Missouri; vice presidents representing various States were also elected. Geo. Gordon was chosen from Illinois, B. B. Serrin from Iowa, E. an Clark from Nebraska. Adjourned *sine die* with no place for next meeting fixed upon.

WASHINGTON CITY.

A Difference of Opinion.

CHICAGO, June 14.—The *Times'* special from Washington says: It is a fact that Hayes and Sherman differ upon the silver question. Sherman is endeavoring to bring Hayes to his views, but without success. He spent several hours at the White House this evening conferring with the President on the subject. Sherman is especially desirous that the coming Republican Ohio State Convention adopt his views. So far as heard from Ohio Republicans want the silver dollar of our forefathers. Hayes favors the restoration of the silver dollar, and thus far has not shown the slightest indication of agreeing with Sherman. This difference of opinion is so marked that it may lead to Sherman's retirement from the cabinet.

Looking for Abuses.

WASHINGTON, June 14.—While no investigation has been ordered nor any special occasion for one has yet been shown here, Secretary Sherman says it is probable that in due time he will continue the policy already inaugurated by examinations now pending in New York, Philadelphia and New Orleans, by directing inquiries to be made as to government offices in San Francisco, with a view to increase the efficiency and to correcting abuses that such investigation may show to exist in their systems of business or official management. Secretary Sherman adds that there is not a word of truth in the published intimations that the Cabinet have determined on a clean sweep of all Federal officials in San Francisco. He says there is neither design nor desire on part of the administration to make a clean sweep or any kind of sweep without cause to be previously shown by careful inquiry and full investigation.

Anything to Beat Randall.

NEW YORK, June 15.—The *Sun's* Washington special says Foster is Hayes' real candidate for Speaker, and he will be pushed for that position. Foster is very anxious, while the President's idea is anything to beat Randall.

A Chandler—Blaine's Organ.

NEW YORK, June 15.—The *Herald's* Washington special says: The fact that several mortgages made by the editor of the *National Republican* were recorded yesterday, among them one to Wm. E. Chandler, to secure the latter in the sum of $20,000, gave rise to a report to-day that the control of the concern had passed into the hands of Chandler, by whom the paper was to be converted into an organ of Blaine. The report is denied on authority to-night, and explanation is given that mortgages, in which is concerned ex-Secretary Robeson as well as Chandler, were made in the course of ordinary business transaction.

Embryo Naval Officers.

WASHINGTON, June 15.—The annual examination at the Naval Academy closes Wednesday next.

Federal Appointment.

WASHINGTON, June 15.—John A. Harlan, colored ex-member of Congress from North Carolina, was appointed to-day collector of internal revenue for the second district of that State.

At a cabinet meeting to-day it was agreed that the vacancy to be created on the 30th inst. by the resignation of Geo. F. Talbot, as solicitor of treasury, shall be filled by the appointment of Kenneth Raynor, of North Carolina.

Pension Agencies.

The Illinois pension agency was fixed for Springfield instead of Chicago. The list of appointments for consolidated agencies is not completed.

The New 4 Per Cent. Bonds.

The Secretary of the Treasury says of the 4 per cents that anybody subscribing and making payments in full before July 1, 1877, will receive from the U. S. Treasurer an interest check covering the period from the date of each payment to date of the bond, July 1, 1877. The Comptroller of Currency, in a circular to banks regarding the 4 per cent. loan, says the contract provides that the loan shall be offered to the people of the United States a reasonable time at par, and he invites subscriptions until July 10th, with the privilege of payment for three months thereafter. The new loan will be offered in Europe, and the syndicate may advance the price after that date; so it is desirable that large American subscriptions be made outside of commercial cities. Subscriptions will be largely paid in currency, and as the bonds can legally be sold only for gold, the banks must be employed for the purchase of gold or remitting to New York associates for that purpose. Therefore the bonds are dated July 1st, but where subscriptions made this month are paid in full, the interest for the period from date of subscription to date of bond, will be remitted in check by the treasurer of the United States. At present the bonds will be sold lower than any other issue, while, as they mature only after thirty years, they are more desirable than bonds paying higher rates. National banks desiring to exchange bonds now on deposit with the treasurer, or proposing to increase their circulation, can subscribe for these bonds until July 10th, paying for the same any time within three months. The comptroller hopes national banks will be ready as ever to meet the exigencies of the government with essential assistance.

BY ATLANTIC CABLE.

English Officers in Foreign Service.

LONDON, June 15.—The foreign office has decided that any British officer in the service of a power which enters into hostilities against another power with which England is at peace must resign either his foreign appointment or commission in the British service.

Grant in England.

LONDON, June 15.—The Earl of Derby, Stanford Northcote, Lord Aberdare, Viscount Cardwell, Lord Tenterden and Right Hon. Mr. Forster with their wives, have given notice of their intention to be present at Guild Hall to-day when the freedom of the city will be presented to Gen. Grant.

Bonds.

LONDON, June 15.—Consols, 94⅛; 4½ per cent. bonds, 104¼.

Death of Lady Maxwell.

LONDON, June 15.—Lady Sterling Maxwell, better known as Hon. Mrs. Norton, is dead.

Calling on the Pope.

ROME, June 15.—The Canadian pilgrims had an audience with the Pope to-day and asked his benediction for their countrymen and people of Liverpool and New York, who had given them a friendly reception. The pilgrims presented the Pope with a magnificent mitre studded with gems, a silver vase and $20,000. The Pope expressed his joy at the escape of the pilgrims from the great perils of their voyage and at the many signs of devotion from the country where the faith, after surmounting so many dangers, still remained so strong and vigorous. He concluded by giving his blessing to the pilgrims.

Notable Death.

Right Honorable Sir George Mellish, Knight, Lord Justice of Appeal in Chancery, is dead.

LONDON, June 15.—Mary Carpenter, English authoress, is dead.

Albany *Democrat*: Hon. Thos. Cornelius of Washington county started over the Lebanon mountain road last week. He took with him a wagon load of provisions, camp equipage, mining tools, etc., and will at once commence the development of his silver ledge. It is situated on Logan's Butte.

THE WAR IN THE EAST.

Predicting Peace.

LONDON, June 15.—The *Pesther Lloyd* newspaper says it has reason to believe peace may be nearer than is generally supposed.

Hungarians Desire to Intervene.

PESTH, June 15.—The municipality here are preparing petitions to the Hungarian Diet and to the government asking for a clear explanation as to the external policy of the country and for the effective intervention of Austro-Hungary to preserve the integrity of the Ottoman empire. Other Hungarian municipalities will follow suit.

Austro-Russian Friendship.

The Russian telegraphic agency says Prince Milan's visit to Ploiesti must only be regarded as proof of the excellent relations existing between Russia and Austria.

Russian Finances.

BERLIN, June 14.—In addition to other financial operations of the Russian government it is believed at St. Petersburg that the government will immediately issue a domestic loan to be sold on change for what can be got.

Prince Milan's Purpose.

VIENNA, June 14.—The Austrian government seems to apprehend that the journey of Prince Milan to Ploiesti has been planned with a view of provoking a Turkish attack and thus supply Servia with a pretext for assisting Russia without giving Austria cause for offense.

Damage Inflicted.

BUCHAREST, June 14.—Reports are in circulation here that the Turkish batteries at Nikopolis have inflicted some damage on Russian material accumulated at the mouth of the Aluta. No details are obtainable.

The Roumanian Circular.

LONDON, June 14.—A Bucharest correspondent telegraphs the text of a circular in which the Roumanian government requests the powers above all to promise that Roumania shall not be forcibly constrained to renew her former relations with the Porte. The circular affirms positively that the declaration of independence was made without any exterior influence. The future conduct of Roumania will prove her policy to be conservative.

Health of Turkish Armies.

ERZEROUM, June 15.—Sickness, especially typhus, causes greater gaps in the Turkish ranks in Asia than volunteers are able to fill up. During the last six months at least 10,000 men have died in the hospitals.

Gortschakoff's Reply.

A Paris correspondent says he has received a letter from Ploiesti, emanating from one who is in a position to have exact information. The writer says: "I have just read Prince Gortschakoff's reply. It is conciliatory, but firm as Constantinople. Nobody says Prince Gortschakoff can predict the course or issue of the war, but neither the question of Constantinople nor that of the Dardanelles can be settled apart from Europe. The Emperor does not wish to take possession of Constantinople. The policy of Russia has been misunderstood. *Arrieres pensee* have been imputed to her that she has not entertained. By this menacing distrust her commerce and industry have been paralyzed. This state of things must cease. As events and the devil faith of the Turks have forced the Emperor to draw the sword, he will not replace it until all the questions at issue have been settled and the programme of Russia receive full satisfaction.

Nicsic Still Starving.

A Vienna correspondent commenting upon the fact that the revictualment of Nicsic has not yet been reported despite Turkish successes, says that possibly the Montenegrins whose withdrawal after the two days fighting was announced, took up another position at the entrance of the plain of Nicsic and made another stand there.

Plans Changed.

Russians appear to have changed their plans and are now concentrating at Simnitza. At Turnu Magueli they are withdrawing the troops and pickets.

Russian Torpedo Boats.

PERA, June 14.—The lieutenant commanding the Russian Sulina torpedo expedition who is a prisoner, states that the Russians have 17 steam torpedo launches in the Black Sea and they may resume the attack any day.

Anglo-Turkish Disagreements.

CONSTANTINOPLE, June 15.—There is a growing coolness between the British ambassador and the Porte. Safvet Pasha, Foreign Minister, claims that Layard is not friendly enough, and Layard complains that the Porte does not attend to his complaints, or only promises, which it does not keep. Layard has made a sharp remonstrance and warned the Porte that its conduct will further alienate England's sympathy.

General War Notes.

Seventeen hundred horsemen entrusted with ammunition and food, left Mostar yesterday for Duga pass.

The German squadron has passed through the Straits of Gibraltar.

The Russian Goal.

BUCHAREST, June 15.—On the Russian army any foreshadowing of peace would fall with a thrill of pas-lonate disgust that would strain the bonds of discipline to the utmost. There can be no question that the army regards Constantinople as the only goal that can content it. The Czar will return to Russia immediately after he has witnessed and participated in the passage of the Danube. There are now comparatively few Russian officers in Bucharest. Their duties call them elsewhere

Gortschakoff to Derby.

LONDON, June 15.—Further details of what is called Gortschakoff's reply to Earl Derby, are as follows: "If the Turks make peace directly Russia crosses the Balkans, Russia will be ready to accord peace, but otherwise she would have no alternative but to conquer and dictate peace to the Porte. If England wishes to prevent Russians from entering Constantinople she has only to exert her influence upon the Turks in order to induce them to yield immediately the Balkans are passed."

Russian Military Stores.

LONDON, June 15.—As soon as wanted there are stores and provisions collected in more exposed place which are kept intact despite the wants of the population.

Warned to be Ready.

In Timok district, the militia have not been called out except for usual drill, but all have been warned to be ready at the first summons. Members of service corps have received similar warning.

The Feeling in Russia.

LONDON, June 15.—A correspondent writes that the idea among the Russians is that half measures will not suffice. Bulgaria must become as autonomous as Servia and Roumania. A rather strained feeling is again taking hold of the public mind relative to Eastern affairs. A letter from Belgrade and from good sources say the reorganization of the forces are all but complete. In the active army only men have been taken who are drilled and have seen service. Others have been enrolled in second-class reserves. The former are tolerably well armed with breech-loaders. The guns which were hidden in the ground at Alexinatz and other places so as to be safe from the Turks have all been recovered and made efficient. The repairing of old and construction of new fortifications has been going on vigorously, especially over all the Timok country. The line of the Danube in that direction has received special attention. Glasgova has been made quite a strong entrenched position as has also Kidajuveta, at the confluence of the Timok and Danube. The works generally are not armed, but guns and ammunition are stored in the station to the rear, so that they may be brought forward.

Dislike to Pray for Turks.

CONSTANTINOPLE, June 15.—There is great irritation among the Greek population of the city against the Patriarch of the Greek church for issuing an order that prayers be said in all churches for the success of the Turkish arms. The Sultan made costly presents and decorated the Patriarch with a badge of the highest order of the Empire.

Servia Admonished to be Quiet.

VIENNA, June 15.—Before leaving Belgrade, Prince Milan was reminded that any attempt on the part of Servia to resume hostilities would be immediately followed by Austrian occupation.

English Cabinet Divided.

CHICAGO, June 15.—The *Inter Ocean's* London special says the English cabinet is said to be divided on Gortschakoff's reply. Derby and Salisbury think Russian assurances satisfactory. Beaconsfield is stubborn on some points and declares further diplomatic correspondence necessary before England can absolutely define her position. The language of the note is firm and dignified.

The Turks at Erzeroum.

ERZEROUM, June 15.—Mukhtar Pasha's position at Zewin is believed to be unassailable. The Turkish right confronts the Russian left in an open district of Alashkirt. An engagement is imminent. The Russian detachment the center of which occupied Soghanlu, has fallen back in the direction of Kars.

ST. PETERSBURG, June 16.—It is officially announced that Mukhtar Pasha has been reinforced by twenty battalions from Trebizonde.

Conspirators Arrested.

VIENNA, June 16.—In connection with the prosecution of some international plots an official employed in the library of Vienna University has been arrested. Documents have been discovered at his house proving the existence of an international propagandi aiming at revolution in Russia and Austria.

Neutral under Compulsion.

BELGRADE, June 15.—Servia will remain neutral under all circumstances. Her neutral attitude will be declared in express terms in a speech from the throne at the opening of the skuptchina.

Hungary's Position.

PESTH, June 15.—Minister Tisza, replying to interpellations of the extreme anti-Russian party, said the government was prepared to submit to criticism rather than pursue a policy contrary to Austro-Hungarian interests. Foreign powers had never manifested greater confidence in and friendship towards the country than at present.

The French Dissensions.

PARIS, June 15.—The *Patrie* says Minister Fourteau will reply to Garibetta's interpellation to-morrow, but will leave the tribune at the slightest word of offense. Duc De Broglie will next day on the table a demand for the dissolution of the chamber.

Mohammedan Outrages.

BERLIN, June 15.—The *Post* says since the outbreak of the war, Mohammedans in Palestine have again become particularly hostile to foreigners. Germany has renewed her representations to the Porte and great powers to ensure the safety of German colonists there.

Tone of the English Press.

The tone of the press has undergone a remarkable change since recent ministerial utterances, almost all journals of repute pointing out that British interests are in no way jeopardized by the Asiatic campaign, but that there is danger the Porte may offend England if not careful as to its action in regard to the Suez canal. Turkey is warned by the *Times* that the decision of the government on this point relates as much to her as Russia.

In political circles the opinion prevails that Russia has purposely ignored the passage of the Danube, hoping victories in Asia Minor would cause the Sultan to sue for peace.

EX-PRESIDENT GRANT IN ENGLAND.

The Freedom of London.

LONDON, June 15.—Ex-President Grant was presented with the freedom of the city of London at Guildhall to-day. About 600 ladies and gentlemen, including several members of the government, American consuls, merchants and principal representatives of trade and commerce of London, were invited to meet the general. Subsequent to the civic ceremony the guests began to arrive. About half past 12 a steady stream of carriages poured into Guildhall yard. General Grant arrived at 1 o'clock. He was received at the entrance of Guildhall by four aldermen and six members of the land committee, and was by them conducted to the library where he was received by the Lord Mayor, and took a seat on the dais on the left of His Worship, who occupied the chair as president of a special court of the common council, at which were assembled most of the members of the corporation, aldermen wearing their scarlet robes, and common councilmen their mazarine gown. A resolution of the court was read by the town clerk, and General Grant, after an address by the chamberlain, was admitted to the freedom of the city, the chamberlain extending the right hand of fellowship as a citizen of London, which was cordially grasped amidst renewed applause. General Grant replied in suitable terms, and then subscribed his name to the roll of honorary freemen, which concluded the business of the special court. Gen. Grant was accompanied by Mrs. Grant and Minister and Mrs. Pierrepont. Among the gentlemen present were Sir Stafford Northcote, chancellor of exchequer, and many members of Parliament. The gold casket containing the freedom of the city has an obverse central panel and view of the Capital at Washington, and on the right or left are a monogram and arms of the Lord Mayor. On the reverse side is a view of the entrance to Guild hall and an appropriate inscription. At the ends are two figures also in gold, finely modeled and chased, representing the city of London and the United States bearing their respective shields, the latter executed in rich enamel. At the corners are double columns of laurel, wreathed with corn and cotton, and on the cover a cornucopia, emblematical of the fertility and prosperity of the United States. The rose, shamrock and thistle are also introduced. The cover is surmounted by the arms of the city of London. The casket is supported by American eagles, modeled and chased in gold, the whole standing on velvet plush, decorated with the stars and stripes. Grant was conducted by the Lord Mayor to Guildhall where an elegant dinner had been provided. After the repast the Lord Mayor proposed the health of the Queen, which was drunk silently with the music of "God Save the Queen." Grant's health was then proposed amidst tremendous cheering. The Lord Mayor proposing the health of Grant said:

I as chief magistrate of the City of London, and on the part of the corporation offer you as hearty a welcome as the sincerity of language can convey. Your presence here as late President of the United States is especially gratifying to all classes of the community, and we feel that although this is your first visit to England it is not a stranger we greet, but a true and honored friend. Twice queen-paying as you did the exalted position of President of the United States, and therefore one of the foremost representatives of that country, we confer an honor upon ourselves by honoring you. Let me express both the hope and belief that when you take your departure you will feel that many true friends of yours personally, and also of your countrymen have been left behind. I have the distinguished honor to propose your health, "May you long live to enjoy the best health and unqualified happiness." The health of Pierrepont and the Lord Mayor and toasts to the army and navy, etc., followed. Grant left about 4 o'clock accompanied by a deputation.

RELIGIOUS ITEMS.

The annual association meeting of the Congregational churches of Oregon and Washington Territory, will be held in Seattle this year, commencing on Thursday the 21st, and continuing four days.

The Willamette Baptist Association will meet with the church at Oregon City, June 22d inst., and the Baptist Sunday School Convention will convene at Albany on the 25th inst., in connection with the State Convention, and will hold three days.

Yamhill *Reporter*: The regular annual camp meeting of the M. E. Church, which began on the Hibbs camp ground on Thursday last, was well attended, and especially was this the case on Sunday last. It is said that the throng was much greater than ever before. It was the most quiet and orderly assemblage that has met in this section for years.

COMMENCEMENT WEEK AT WILLAMETTE UNIVERSITY.

SALEM, June 15, 1877.

TO THE EDITOR OF THE OREGONIAN:

Yesterday, the closing day of Commencement Week, was devoted to some of the most interesting exercises of this always very interesting season. The old chapel which has witnessed so many of these interesting occasions, has a seating capacity of fully 1,000, and yesterday afternoon and evening was full. Every niche and cranny was utilized; seats and benches crowded every aisle, and those who appeared late upon the scene were only too well pleased to stand throughout the exercises. For the class of '77 this was one of the red days of life. One goal of their ambition had been finally reached. The class was a large one, and what can here be said of their productions must necessarily be brief.

After prayer by Rev. Mr. Tower, Mr. Geo. A. Peebles was announced for an oration, the subject of which was Charles Sumner. America, said the speaker, prides herself in her self-made men. The history of the nation from its earliest incept on shows that those who have been most conspicuous in our national councils are men who have had to struggle from their earlies' youth against poverty and adversity. Such was not, however, the life of Sumner. He was surrounded with the best of opportunities, the best of books and the most learned and erudite of teachers, and was privileged to crown all these home advantages with the experience of foreign travel. He became the champion, the apostle, the martyr of freedom. He lived to see the

JEWISH INFLUENCE.

At present, according to the *Reformer*, the Hebrew population of the globe numbers more than ten millions. Two millions are in the Russian Empire, and the next highest number, one million two-hundred thousand, is in Austria. In Turkey there are four hundred thousand. The number in the United States is put at two hundred and fifty thousand, which seems a low estimate. This people, eminent in trade, commerce and finance, has pushed into every country on the globe. No locality is too remote for its enterprise. Into whatever region civilized man has penetrated the Jew is foremost in bringing that country into relations with the trade of the world.

A letter from London to the New York *Times* touches an interesting and important subject—namely, the influence of the Jewish race in European politics. It is a reproach to Christianity that for centuries it persecuted the Jews with more intolerance than the Mussulmans ever did; therefore the Hebrew race, wherever it is brought in contact with the present struggle in Europe, is against the cause of which Russia is now the representative power. It is not alone, says the *Times'* writer, "that the Jew feels the oppression of the Moslem much less than his Christian neighbors; there is the further reason that the Servian and Roumanian Christians have in very recent times persecuted the Jew with a fanatical fury worthy of the Middle Ages, and that the advance of the armies of 'Holy Russia,' means for the Hebrew race an enlargement of the area of intolerance."

The immense wealth of the Jews, among whom are the great money kings of the world, makes the representatives of this people powerful in all the courts of Europe. An advantage like this, seconded by every variety of talents among leading men of the race, secures consideration and establishes influence in all principal countries. England's premier, one of the most accomplished men of any age, is the central figure of the opposition to Russian designs. Lord Beaconsfield is an active friend of the Turk, and it is an alliance that runs through all Europe. It is the effect of the illiberality and intolerance of the Greek Christians toward the Hebrew race through long centuries; and Mr. Freeman, in his work on *The Ottoman Power*, explains that it is in consequence of this fanatical proscription of their race that the most fiercely Turkish part of the press throughout Europe is that which is controlled by Jewish hands. It is a natural position to be taken by a race which has found Turkish oppression light indeed compared with Christian persecution.

THE FOLLY OF IT.

But a single reason can be named why any one should suppose that the project outlined in the dispatches to make Tilden President can possibly be true. That reason consists in the fact that the party which proposes this has heretofore for many years been accustomed to do foolish and suicidal things, and may be expected to make more attempts in the same line. Otherwise the story might be treated as purely sensational. But it has so happened for years that when Republican prospects were at low ebb the fatuous course of Democracy has regularly brought to its opponents advantage and relief. Observing politicians have come to regard it as certain that the Democratic party at a critical time will always spoil its prospects by acts of folly. It would not tax credulity greatly to believe that the political stupidity which wrecked the party on the slavery question, made it oppose the war for the Union, caused it to contend against equal rights for the colored race and made it a champion of ruinous financial heresies, will shortly attempt to oust Hayes and Wheeler and put Tilden and Hendricks in.

That such action would recoil on its authors and destroy all their fair hopes of success in the next general election is as certain as that it owes its past defeats to its own egregious and amazing blunders. The country wants peace and exemption from the turmoil of politics. When Hayes and Wheeler were declared elected the result was accepted as final. It was a result brought about under the sanction of law, and must not be disputed, unless we are prepared to relinquish the principle of obedience to the declared forms of constitutional government.

The mere suggestion of a scheme like this is another proof in a long series of incidents going to show what a restive, turbulent party spirit exists in the political organization in whose name and behalf this project is put forth. Why are threats of outbreak, disorder, rebellion or revolution started as often as there is a failure of its effort to control the government? This is not patriotism, but an intense and selfish spirit of partisanship. Of course it is not shared by the entire party. It would be an unjust reflection on the patriotism of multitudes of its members to assert that the revolutionary schemes of a class of politicians who are seeking their own aggrandizement are prompted or accompanied in by all who profess the party name.

THE CITY ELECTION.

Party considerations have little weight in local elections, and should have little. Party is a body of men associated together to enforce some general principle of government on which they are all agreed. In municipal elections this general principle is often wanting altogether, and the simple question of local administration is presented. Important as this may be, it does not cover questions on which the people are divided into national parties, and in consequence it is not possible to present a real political test on such occasions.

But though the voter has some latitude of choice, his freedom in this respect is not unlimited; for he is restricted in his selection to candidates actually presented. When party nominations are made the voter may recognize no real obligation, but he must make his choice out of such nominations, or vote without much intelligence and wholly without purpose. For all purposeless action is unintelligent, and as the citizen knows that certain of the candidates named must be elected, and that votes which are scattered are only thrown away, he must select from the nominations such as seem to himself most satisfactory. For this selection the party test is not generally recognized as the proper criterion for elections like the one now to be held.

Yesterday the Republican convention called to nominate candidates for municipal office presented some suitable men; but we cannot think it anybody's duty to promise a support of the entire list. To-day another nominating convention will present its candidates. We shall see who they are. We may say now, however, that Mr. Newbury is an estimable man and very worthy of support. Mr. Riley is also a good citizen and bears an honorable reputation. So of Mr. Woodward. The Democratic convention will not nominate better men. Criticism of yesterday's nominations for the Common Council will be general, and large numbers, before deciding how to vote, will wait to see who the other candidates for the position are. Irresponsibility in the Common Council is out of place. It is proper to look to the standing and character of the men who are to control the purse of the city. A competent assessor is also wanted. No more bad jobs like that of last year are desired. Charles Schramm possesses much experience and is able to make a good assessment. It would be gratifying if nothing could be said to detract from this commendation.

A feeling is prevalent that there should be a change in the police administration of the city. Candor obliges us to say that the force has not been used as a political machine. But complaint is made that it has not been so vigilant as it ought in repression of certain forms of vice, and many feel that a change will be wholesome, and will vote accordingly.

The celebrated statue of Venus of Milo, at present in the Louvre, a product of the best period of ancient Greek art, was exhumed on the island of Milo in the Ægean sea in the year 1820. It has been made familiar to the world by casts, drawings and photographs innumerable, and also by many classic treatises. The arms are broken off, and the problem of their symmetrical restoration has been one of the most fruitful themes of discussion and dispute in the whole literature of art. It is now announced, however, that the arms have been discovered, not thirty feet from the place where the statue lay; and it is said that the exquisite modeling convinces all observers of their authenticity. The matter is made the subject of a report from Mr. Read, United States Minister to Greece. Eminent art critics have maintained from the pose of the statue that one of the arms must have supported a shield or other weight; and this theory is now proven correct. A shield or disk is borne aloft on the arm, harmonizing the conception of the figure. But there is no reason why it should be called a statue of Venus. Its bold contour and swelling muscles are the product of a totally different idea. This has been recognized in the name given it of Venus Victrix. The statue cannot be less, and is probably considerable more, than twenty centuries old.

While the Democratic State officials are making impertinent and irrelevant answers to inquiries made through the public press concerning their squandering of the State's revenues, and endeavoring to cast the burden of the present condition of the finances on the shoulders of ex-Governor Woods and ex-Secretary May, will they please inform the public why they have taken no steps to collect the judgment against Dowell and others as May's sureties? That matter has long been in a situation to be collected by execution, and yet upon one frivolous pretext or another the State is allowed to lie out of the money, and may finally lose it altogether. A fire or other casualty might destroy the property out of which the debt could be made now on execution. Delays are dangerous. Has any one shown to the State authorities "substantial reasons" for this dangerous delay? Answer and act, gentlemen.

Nepokoitschitzky, chief staff officer of the Russian armies, is seventy years old. From his youth he has been in military service; has participated in all the wars in which Russia has been engaged since 1825, and is said to be another Moltke for comprehensive military knowledge.

TAKE CARE OF YOUR EYES!

DR. M. S. SASSARETH.

THIS VERY DISTINGUISHED FRENCH OCULIST, (of over 25 years experience), arrived here on the steamer *City of Chester*, and is now stopping at Room No. 1, St. Charles Hotel, where he will remain until the 21st of June. His office hours are from 1 to 5 P. M. Consultation free.

One of the leading papers of Indiana says of Dr. Sassareth: "He is without doubt a very scientific man, who has thoroughly studied the eye, and fully understands all the diseases and defects to which it is subject. He treats these, removes all obstructions, and performs the most difficult operations when necessary; but the best remedy he furnishes for the defective eyesight is the most perfect glasses we ever saw. Looking through a pair of his glasses is like having a pair of new eyes. The pleasure and satisfaction can only be realized by actual trial. These glasses are made upon the most scientific principle, and therefore are not only just what is needed, but so perfect that the person using them is scarcely aware that any glasses at all are before his eyes. Dr. S. has treated most successfully a number of our leading citizens, and we notice that he is patronized by the best informed people wherever he goes."

Dr. Glick, an eminent physician, writes as follows to Dr. Sassareth: "Having enjoyed the use of your eye glasses, as adapted to my eyes by you in person, I feel that I would be derelict in my duty to those similarly afflicted as am, if I did not make this acknowledgement a gratitude to you. My glasses, both for reading and walking, give me entire satisfaction."

Says the Delphi (Indiana) *Journal*: "We are exceedingly cautious in recommending traveling physicians, yet when we find one whose talents and skill are endorsed by the best medical men in the State, we feel that we run no risk in presenting him in the most favorable light. We have just met one whom we can certainly endorse. We allude to Dr. Sassareth, an eminent French Oculist, who is very highly recommended by Dr. Finch of Logansport, Drs. Glick, O'Farrel and other physicians of Lafayette, and scores of the best citizens of both places."

The South Bend *Register* speaks thus of the great skill of Dr. Sassareth: "He is a very scientific oculist and thoroughly understands the delicate organism of the eye. * * * He has treated with the most gratifying results a number of our leading citizens, including ex Vice President Colfax."

A. P. Palmer, a prominent member of the City Bank of Albany, New York, says: "I take great pleasure in referring to the time about five years ago; when you furnished me with the first eye glasses I ever had occasion to use, and to bear testimony to the correctness of your judgment in the selection of those so admirably adapted to my sight."

DR. SASSARETH expects to remain only about a fortnight in Portland. His time is limited, and those who wish to consult him should call early. He can be seen every day between 1 and 5 o'clock P. M.

OFFICE OF INSURANCE COMMISSIONER, San Francisco, Feb. 5, 1877.

I, J. W. Foard, hereby certify that I am Insurance Commissioner of the State of California, and have supervision of insurance business in the State, and as such Commissioner, further certify that the Pacific Mutual Life Insurance Company of California is a corporation properly organized under the laws of this State, and being in a solvent condition and possessed of a paid up capital of One Hundred Thousand Dollars, equal to Gold Coin of the United States is authorized to do business in the State. And I further certify that, upon a personal examination of the books and papers of the said company at the close of the year eighteen hundred and seventy-six, its statement as of this date, and now on file in this office, was shown to be correct and true, the company being possessed of good, valid assets amounting to one million two hundred and sixty-four thousand eight hundred and thirty-six dollars and a quarter, (1,264,836 25), and not having any outstanding liabilities, as defined by the laws of the State, amounting to nine hundred and sixteen thousand seven hundred and fifty dollars and five cents ($916,750 05), exclusive of the Capital Stock.

As witness my hand and official seal, this day and year first above written.

(L.S.) J. W. FOARD,
Insurance Commissioner.

[*Extract from Report of A. B. Smith, ex-Deputy Insurance Commissioner.*]

J. G. Edwards, Publisher *Coast Review*,

Dear Sir:—In pursuance of your request I have made an examination of the Assets and Liabilities of the Pacific Mutual Life Insurance Company of California, as they existed on the 31st day of December, 1876, as shown by the books and papers of the Company, and as a result of such examination I beg to report as follows:

Total Assets, Gold	$1,281,847 59
Re-Insurance Reserve, American Experience, 4½ per ct. $886,031 49	
Claims for Death Losses 28,700 00	
Due on Account Salaries and Rents 2,019 02	
Total Liabilities, Gold	916,750 51
Net surplus to Policy-holders, Gold	$365,097 08
Company's paid-up Capital	$100,000 00

The above is, I believe, a true and fair statement of the Company's condition Dec. 31, 1876.

In conclusion, I beg to say that I found the Company's business thoroughly systematized—its books and papers in excellent condition and neatly kept. Every facility was extended to me by all the officers and employees of the Company to enable me to make my examination thorough. Books, papers and accounts were freely exhibited to me. There was no attempt to hold back or conceal anything. I am satisfied the Company courts the most rigid scrutiny. For courteous treatment I beg to return thanks to the officers and attaches of the Company.

Respectfully submitted, A. D. SMITH.

INHUMAN TREATMENT.—We are informed that a well-known person (whose name we suppress for certain reasons), living on the corner of B and Seventh streets, is in the habit of whipping most unmercifully his son, a lad about 10 years of age. Yesterday a gentleman having occasion to pass the house was attracted by the child's cries. On making some inquiries and was informed by the neighbors that the inhuman father had the habit of beating the lad in the most unmerciful manner almost every day on the slightest provocation. If we have been correctly informed, the matter ought to be investigated, and a summary stop put to such brutality.

THE NEWS ROOM.—At Sherrill's saloon is a reading room in an uproar, the cause being we find he figures, etc., with a meaning. The figures presented in the figures is different, and each is of a different color. The color worked it is a Mrs. Anna Ward, who received two bronze medals at the International Exhibition of 1852.

SIGNAL STATION ESTABLISHED.—Mr. Lloyd, the excellent and obliging signal officer in this city, informs us that the following signal stations have been established: Wimemucca, Nevada; Visalia, Los Angeles and Red Bluff, California; Oregon; Pioche, Nevada; Olympia, Washington Territory; Sacramento, Cal.; Olympia, W. T.; Boise City, I. T.

ROVING INDIANS.—Complaints come from Linnton, on the river between Portland and Saint Helens, that Indians are gathering in that vicinity, and that half-starved ponies, who break into fields and do much damage. They should be sent to their reservation.

FOURTH OF JULY.—The Ladies Social Union of the Yamhill street Church have engaged the use of the steamer *E. N. Cooke* for a grand excursion down the Columbia on the coming Fourth of July. Further notice of the same will soon appear.

LETTER LIST.—The following letters remain uncalled for in Wells, Fargo & Co's Express office: J. M. Bentley, T. W. Fitzgerald, Alex Fleming, R. Hodgson, P. Koenigsberger, P. Merrill, Wm. Rane, A. Rawless, Miss Bertie Wise.

BUSINESS NOTICES.

Fine Adjustable Windows and blinds, Simon's Spring Bed cannot be excelled for quantity, quality and price. When you are down town drop in and see them, at 41 Front street.

Information in Sewing Machines. The Singer Manufacturing Co. have this day announced a large reduction in prices, as will be seen by reference to our advertising columns. They have also put on the market a new family machine at $50. Call and see the sewing machine within the reach of all, and we predict that their sales under the new price will be largely increased. They have agents in nearly every county in Oregon and Washington Territory, and still are starting new agencies. Portland office, cor. First and Yamhill streets.

PICNICS.

EXCURSION TO THE CASCADES.—The people of the Columbia slough, ever wide-awake to the interest of the little folks, propose to have an excursion to the Cascades Wednesday, June 20, 1877. The beautiful steamer *Gussie* has been engaged for the occasion, and Capt. Hoi. Driver's landing at 10 o'clock A. M. will be happy excursionists. This will give all an opportunity to see the beautiful and picturesque scenery of the grand old Columbia. Come one! come all! for a good time is anticipated.

Ladies' linen suits sold cheaper at J. Harris & Son's Emporium of Fashion than in any store in the city.

My wife says she will not prepare lunch today as we can get it in style at Barnes'.

AMUSEMENTS.

DRAMATIC SEASON.—Berl's Dramatic Troupe will arrive here on the *Ajax* from San Francisco, and next Monday evening a brief theatrical season will be inaugurated. During their necessarily brief stay in this city, the great scenic and sensational play of "A Tour of the World in 80 Days" will be presented. The play had a very long and successful run in San Francisco, and at many of the interior towns of California, and elicited much public and favorable comment. The company embrace about 25 members all told. Manager Bert brings with him all the necessary scenery, from the brush of that master of scenic painting—Voegtlin. Box sheet open at Gray's music store.

THE BENEFIT.—Mr. Edward Farley, the superb basso and very general favorite with the Portland public, will be the recipient of a complimentary benefit at New Market Theater this evening. All must admit that Mr. Farley is a very careful and painstaking artiste, and his constant efforts to please have rendered him one of the established favorites with lovers of operatic music in this city. He is a most deserving gentleman, and richly merits an overflowing house. On this occasion a very attractive bill will be offered. Lecocq's sparkling and very comic opera, "La Fille de Madame Angot," will be rendered with the full strength of the company. This will positively be the last appearance in this city of the company, as they will return in a few days to Victoria. As the company will arrive on the 4 o'clock train, there will be no matinee performance. It is to be hoped that a jammed auditorium will greet to-night's performance.

EUGENE ITEMS.

Our regular correspondent sends the following under date of June 15th:

The hop crop for this year promises to be fully up to the large one last season.

Tuesday the Grange Council for Lane county met and transacted some important business.

It has been extremely warm for several days past, the thermometer standing from 80° to 90°.

The campmeeting near Goshen on Sunday proved a big thing, about 2,000 persons being present.

There is very considerble wool coming into market, and commanding from 23 to 26 cents per pound.

A part of the telegraph wire to be used by the Western Union repairing force has arrived at this place.

The English Comic Opera Troupe performed at Lane's Hall Thursday night to a good audience.

Ikey Steinheiser, the OREGONIAN carrier, has purchased a Mustang, so as to deliver his papers with greater alacrity.

A. C. Edmonds, the "Portland Mechanic," has been lecturing the past week in the court house on religion and kindred subjects.

The committee on celebrating the Fourth, we are informed, are going to offer a purse of $50 or $100 to be given to the victorious base ball club playing at this place on that day.

In returning from camp-meeting Sunday last week a wheel came off a hack belonging to Mr. John Maxwell, and more or less bruised up its occupants, some of them pretty severely.

Last evening some small boys found the buggy recently lost in the Willamette by H. Clay Humphrey. It had floated down the river about a mile before upsetting, and was found just above the Eugene bridge.

A green granger left his team untied near Kinney's steam mill, Thursday last. The result was he found the load unevenly distributed along the road out of town, and the wagon and team fast on a stump about four miles from the starting place.

Those having the celebration in charge propose to block up and rent the street immediately in front of the *Journal* office. This is a good move and adopted at the right time, as it has become somewhat monotonous to march out in the country through the dust to celebrate.

Sunday a couple of young men with a little too much "benzine" aboard tried to take a wheel off a lumber wagon with a buggy. The consequences were that the boys proceeded to campmeeting in another conveyance, and the next day the buggy was being repaired at their expense.

PERSONAL.

Postmaster Cole has returned from the southern portion of the State, where he has been for over a month.

Dr. Schumacher has returned to Portland from Malheur reservation, where he has been stationed for the past twenty months.

VERY SUCCESSFUL.—Dr. Sassareth, the eminent French oculist, has met with great success during his brief sojourn in this city. He has already furnished a large number of our citizens with glasses, including several of the prominent physicians of Portland. His stay in this city will necessarily be short. The doctor will visit Salem next Wednesday.

Clothing is sold at prices that defy competition at Kohn's corner of First and Morrison streets.

Very little attention is paid to the Eastern war, while the new goods just received by Beck & Waldman attract a deal of attention. Look in for a moment and be satisfied. The prices are suited to the times.

Prof. E. Stebinger, teacher of vocal and instrumental music, is now ready to give lessons either at his rooms or at private houses. For particulars, address P. O. Box 735.

Fine fashionable dress and business suits, at bedrock prices, at Kohn's clothing palace, corner of First and Morrison streets.

ATTENTION!

As we have made arrangements with a large manufacturing house in the East for our fall importation, we will, therefore, announce to the public at large that we will sell our entire stock of clothing and gents' furnishing goods for the next 30 days, at a small advance above Eastern manufacturing prices. It is needless for us to publish prices, but a call at our establishment will convince you that we keep the best assorted stock this side of San Francisco, and you will find our prices less than any other house in the State.

Murder Will Out.

A few years ago "August Flower" was discovered to be a certain cure for Dyspepsia and Liver Complaint; a few thin Dyspeptics made known to their friends how easily and quickly they had been cured by its use. The great merits of GREEN'S AUGUST FLOWER became heralded through the country by one sufferer to another, until, without advertising, its sale has become immense. Druggists in EVERY TOWN in the United States are selling it. No person suffering with Sour Stomach, Sick Headache, Costiveness, Palpitation of the Heart, Indigestion, Low Spirits, etc., can take three doses without relief. Go to your Druggist and get a bottle for 75 cents and try it. Sample bottles 10 cents. Agents, Crane & Brigham, wholesale druggists, San Francisco.

EDUCATIONAL.

EXAMINATION AND CLOSING EXERCISES OF THE ROBERT SCOTT GRAMMAR SCHOOL.

The examination and closing exercises of this excellent Institution of learning took place this week. The examination was of a most thorough and satisfactory character. In most subjects upon which the pupils were examined they did remarkably well, showing that they had been very carefully instructed and that they had done good honest work themselves.

It was very evident that no effort had been made to cram the boys for the occasion. It was an honest test of their real attainments—their real progress during the past year. We were specially pleased at the way in which they have been taught. Although text books have been used, and they have been required to become thoroughly familiar with them, still they have been taught to think for themselves, and much knowledge has been imparted outside of the books, that has added greatly to the interest and the better understanding of them. We were not able to be present at all the examinations, but we understand that they were all excellent.

The classes in Arithmetic, taught by Mr. Grant, showed very careful training, as also the classes in Latin, Physics, Roman History and Rhetoric by Mr. Burton. The class in the 1st Latin Book showed great familiarity with the Grammar, all doing well, but Couch, Flanders, Abacy and Burnside excelled, not that they understood the rules better than the others, but that they were more thoughtful and careful in their application. In Rhetoric, Blackwood, Marshall, Clopton and Pangburn were excellent. Besides those who received prizes for writing, honorable mention should be made of Barnhart and Irving, both of whom wrote with great care and made good improvement. Indeed, the writing of all the boys shows much care and pains-taking, both on the part of the teacher and the taught. It has seldom been our pleasure to examine so many copy books of so many boys and find them so clean and carefully written.

In an examination from three to six studies, we find 24 boys out of a school of 50, with an average per cent. of 97. The following are the names of the boys who attained so high a standing: Abney, Barnhart, Blackwood, Brown, Burnside, Clopton, Crawford, Deady, Fairfowl, Flanders, Goldsmith, Green, Hampton, Hillman, J. Lewis, Lindsey, Marshall, Morris, Pangburn, Reed, Slocum, E. Van Fridagh and P. Van Fridagh. A. Lewis averaged 100 per cent.

The closing exercises were held in the chapel on Thursday evening, the chapel being filled with the parents and friends of the boys. After prayer by the bishop and a song by the school, four little boys—Ray Green, Willie Morris, John Hillman and Jack Reed—declaimed for a prize, all doing very well for boys so young.

After them followed the older boys in the following order: F. B. Clopton, A. D. Marshall, E. Blackwood, W. P. Covilland, R. J. Slater.

They all did well and showed that they had been very carefully trained. The head master then delivered his annual address which was thoughtful and instructive, after which followed the presentation of prizes by the Bishop.

For the greatest improvement in penmanship, gold pens were awarded to Frank Covilland in Mr. Burton's room, and to Slocum in Mr. Grant's room. For docility and courtesy books were awarded to Canby, V. Brown, Barnhart, Burnside, Goldsmith, Schooling, Clopton and Deady.

For attendance and conduct books were awarded to Glisan and Fairfoul. For scholarship, attendance and conduct in the primary room, the first prize was given to Slocum, second Reed, and third, Hillman.

For the same thing in the senior room, Allen Lewis the Trinity medal; Blackwood the Burton medal, and Couch Flanders, Worcester's unabridged dictionary.

To the little boys for speaking, the first prize was given to Willie Morris and Ray Green, and the second to J. Reed.

To the larger boys, the first prize was awarded to W. P. Covilland and the second to Frank Clopton.

This school although known only as a grammar school is doing a very much higher grade of work than that which its name indicates, as many of its text books are those used in many of our colleges. In Latin, in Greek, in Physics, and in other studies, it is doing the work of a college.

The discipline of the school is excellent, and during the past year there has hardly been a case of insubordination. We know of no school in the land where boys will be better taught, disciplined, and cared for than they will be in this school. The school is located in a most beautiful and healthful part of our city, its buildings and grounds are capacious, and everything has been done to make it a comfortable and pleasant home for boys. The head master is admirably suited in every way for the position he occupies, and has under him an excellent corps of teachers. We bespeak for this school the liberal patronage of the people of this whole State. It is just the place for boys who have to be sent away from home to obtain their education.

Would willingly have given one hundred dollars for, be rel of obtained from it the first dose.

From the well-known dealers in Yale's Mammoth Teas.

Gentlemen—I have suffered ten years from the worst forms of Acute Catarrh, or Cold in the Head, that ever afflicted mortal man. Whenever I took a fresh cold it would settle in my head, causing the most violent sneezing, accompanied by excessive discharges from my eyes and nose. For days and days my suffering would be intense, and finally settled in my loins and bowels, would render my life miserable for a month. Never, during all my sufferings, was I able to obtain even temporary relief from any medicine I ever tried. Three weeks ago, while suffering from the worst attack I ever had, I procured a bottle of SANFORD'S RADICAL CURE FOR CATARRH. The relief from the first dose was so gratifying that I would willingly have given *one hundred dollars to obtain it*. A few doses completely cured me. My head has since been perfectly free from mucous accumulations, my breathing easy, and not a symptom of trouble about my back and bowels has presented itself. Its effect in my case has been truly remarkable.

Very respectfully, R. M. YALE.

Sail and Awning Maker, 2 South Market St.

CATARRH.

A Remarkable Case of Catarrh Cured by the use of Twelve Bottles.

We select the following case as showing how frightful this disease may become, and as a convincing proof of the value of SANFORD'S RADICAL CURE, as a reliable remedy for its cure, even in cases of the greatest severity. We regret that from motives of delicacy the gentleman described to permit the use of his name.

Case No. 11.—This is the case of a man in the prime of life who had contracted the disease through a bad cold six years ago. Favored by a scrofulous condition of the blood, the disease sent its acrid poison into every part of the system, so that when he commenced the use of SANFORD'S RADICAL CURE it had become one of the worst cases ever experienced by any living man. The discharge at night was thick, putrid and streaked with blood, and so excessive in quantity as to discharge itself upon the pillow during sleep, and collecting in quantities in his throat, would at the point of strangulation, wake him. Several times each night he was obliged to get up and partially clear his nostrils and throat before he could sleep. From the use of one bottle of the RADICAL CURE to the present, the cure has been gradual, satisfactory and permanent. He has used twelve bottles, and now experiences no return of the discharge nor any of its disagreeable symptoms, besides enjoying unusually good health otherwise.

CATARRH.

A series of uninterrupted Cures effected with it by a well-known Boston Physician.

From Dr. Chas. Main.

Catarrh is the *opprobium medicorum* of the medical profession, and by many is thought incurable. When, therefore, a preparat on is presented to my notice, endorsed by so responsible a firm as Messrs. Weeks & Potter, I am bound to give it a fair and unprejudiced trial, and when such trial results in a series of uninterrupted cures, I cannot allow professional etiquette to interfere with a candid expression of my regard for it. I therefore give SANFORD'S RADICAL CURE FOR CATARRH my unqualified approval, and consider it is a remedy for the treatment of every form of Catarrh superior to any preparation laid down in any text book with which I am familiar. Very respectfully,

DR. CHARLES MAIN,

SAN FRANCISCO, June 15.—The Pacific Mail steamship *China* arrived to-day from Panama and way ports. Capt. Nolan reports that on passing the scene of the wreck of the steamer *City of San Francisco*, he sundriver lying with upper works out of the water. He also brings intelligence that the company had engaged the services of a Mexican schooner at Acapulco, and had already removed one cargo of merchandise from the wrecked steamer, and that some possibility may exist of getting her off. Capt. Nolan returned to Acapulco as a passenger on the *Constitution* to-day, and will take charge of the work of removing the cargo from the wreck. The wrecking steamer *Rivington*, of the Panama Transit Company, is somewhere on the coast coming from the Straits of Magellan with the steamer *Georgia*, which was stranded there, and it is possible she may be intercepted and sent to the wreck of the *City of San Francisco*.

Robbers Foiled.

SAN LUIS OBISPO, June 15.—Sunday night April 1st two Spaniards entered the residence of C. H. Phillips, cashier of the Bank of San Luis Obispo, half mile from town, crawling a distance to intimidate and abduct him for the purpose of robbing the bank. He struggled with them until they were compelled to relinquish their designs and with others outside left in haste. Through Mr. Phillips' efforts three of the parties were arrested in Bakersfield, May 8th. They were indicted, have been tried and convicted and to-day were sentenced one to two years and two to four years in the State prison.

Mining Tax Suits.

The city is about to enter suits against the mining companies for $22,000 taxes due for the last quarter. There is still considerable excitement over the fact that the clause exempting the mining companies was surreptitiously added to the city charter after it passed the Legislature, and the suit is expected to bring out some startling developments.

Fatal Explosion.

VIRGINIA CITY, June 15.—News has just been received here that the storehouse of explosives used in Sutro tunnel blew up at 2 o'clock, fatally injuring several men. No particulars can be furnished.

OREGON.

Diphtheria is again prevalent in Corvallis.

Salmon have not yet begun to run in Umpqua and Siuslaw rivers.

G. W. Yocum of Portland will deliver an oration at Albany on the Fourth.

The machinery for working the silver mud has begun to arrive at the "springs."

The *Gazette* says that iron for the Yaquina railroad will cost only $65,000, and may be had on time.

Six miles of the Yaquina railroad have been graded. Parties will begin work at once both at Philomath and the Bay.

The *Crucible* is the name of a new paper to be started at Philomath, Benton county. Good name. 'Twill serve to test the proprietor's metal.

We copied an item out of the Corvallis *Gazette* and gave credit therefor, which the Corvallis *Democrat* reprinted, attributed to the OREGONIAN and proceeded to comment upon with the dull wit of feeble malice. Either a little intelligence or a little honesty, or both is much wanted in the *Gazette's* local contemporary.

Corvallis *Gazette*: The official survey of Yaquina harbor has settled the question of its capacity and adaptability, and the harbor is getting better every year, and only needs a small appropriation from government, which will be received in due time, to make it accessible at all tides for any vessel that can reach Portland.

The residence of John A. Johns, two miles south of Salem, was burned to the ground Wednesday afternoon. The property was insured in the Phoenix as follows: On the house, $1,000; on the furniture, $400; on the wearing apparel, $400. Total, $1,800. The house was almost new and substantial, and this insurance will not nearly cover the loss.

R. A. Riggs, of Salem, has the journal that records the journeyings of the principal party of immigrants that arrived in Oregon in 1845. The journal is in a perfect state of preservation, and gives each day's doings of the long, weary trip from Missouri to opposite the "Three Sisters." It is in the handwriting of Mr. James Field, and the last sentence is unfinished, as the writer went "out of his head" with an attack of the mountain fever at the latter point. It also gives the daily roll call by Mr. John Martin, who now lives on Salem prairie, who was the "adjutant" of the company.

THE MISSISSIPPI LETTER.

Washington correspondents reiterate the statement that Evarts is preparing a letter on the administration's Southern policy which will produce a sensation. The *Tribune's* representative telegraphs:

The letter which the administration is preparing upon the murder of Judge Chisolm and the Kemper county massacre is one which will attract the attention of the country and may revolutionize Mississippi politics. Persons in authority have recently been advised from Mississippi that there is a very deep feeling among a certain portion of the Democracy against the massacre and against Gov. Stone for his inaction, and that if any Democrat of prominence will take the lead in denouncing Gov. Stone, and in calling upon the State authorities to vindicate the honor of Mississippi, such a movement would become quite formidable. It had been expected that Senator Lamar, with the record he has made and the assurances he has given as to the honor of the South, would himself have taken some initiative in the matter. The information from Mississippi, however, leaves the impression that he seems to have sanctioned the policy of Gov. Stone, and does not wish to "stir it up."

Tacoma *Herald*: Practical examinations have evolved the fact that the greater portion of the Puget Sound basin is underlaid with coal, more or less extensive. In fact we build our houses, drive our teams, run our engines, and float our great ships over one of the most extensive coal beds in the world.

THE TERRITORIES.

The mines in Ore Fino district, Idaho, appear to be as good now as at any time for the past five years.

Emigrants continue to crowd the O. S. N. Co.'s boats, going to the Upper country. Many are landed at points on Snake river.

The *Star* estimates the number of settlers in the Skagit valley already at 700. Twenty new claims have been taken on the Nookachamish affluent of the Skagit.

A correspondent says of Yakima county: "There are at present about 500 voters in the county, and we hope to double this number before the election of 1878. Kittitas valley is receiving a goodly number of settlers, while the Attanum, Natchez and Yakima valleys are rapidly filling up.

English Grain Markets.

[BY TELEGRAPH.]

LIVERPOOL, June 15.—A leading grain circular says: Wheat has declined a shilling per quarter. In some cases of coast and arrival trade the tendency is against sellers and transactions have been small. Only eleven cargoes have been for sale since Tuesday. Wheat and maize sell slowly in buyers favor. Arrivals of wheat and corn the past three days have been good. This market to day was thinly attended, and sale of wheat consequently limited to very small transactions, while descriptions declined two pence per cental and red three pence. Flour was almost unsaleable and quoted at one shilling per sack cheaper. For new corn there was limited request, sellers accepting six pence per quarter less. Old was unchanged.

Philadelphia Wool Market.

PHILADELPHIA, June 15.—Wool buoyant in improved demand, prices firmer but not higher. Colorado washed, 18@27; unwashed, 17@19; extra and merino pulled, 28@37; No. 1 and super pulled, 33@36; Texas fine and medium, 16@30; coarse, 16@18; California fine and medium, 27@32; coarse, 20@25.

Liverpool Grain Market.

LIVERPOOL, June 15.—Breadstuffs dull. Corn, 29s 3d@29s 6d for new mixed Western; flour 27@32s for Western; wheat, 12s 2d@12s 6d for average California white; 12s 6d@12s 11d for club; 11s 8d@12s for red Western spring. Receipts of wheat the past three days 63,000 quarters; American, 19,000.

TO DR. PAUL M. BRENAN—

For the past year and a half I have been suffering from Nervous and General Debility, Kidney Disease, Loss of Flesh and Strength, dizziness in the head and a constant pain through the back and loins. I became so debilitated and broken down that I was unfitted for business. I have been to Victoria and al. over the coast under medical treatment for the past nine months, without receiving any benefit whatever, and had almost given up hopes of ever recovering, until I came under your treatment, about seven weeks ago. From the very first your treatment seemed to work like a charm, and I constantly improved from the beginning. I have gained 14 pounds of flesh, and I am now, thanks to your skillful treatment, perfectly well, and am able to return to my business on the Snohomish.

JAMES KING.

Seattle, March 31, 1877.

To the People: I have been troubled with chronic Nasal Catarrh for years, the disease being so aggravated that it ore was constantly an effusion of matter passing down into my throat behind the palate and down through my nostrils.

My nose became depressed between the eyes and swollen or each side. I was told by physicians that it was a polypus; but some of the blood vessels were involved, and that the removal would endanger my life by hemorrhage. I became so bad that I made up my mind that I must have immediate relief or die.

As a last resort I applied to Dr. Paul M. Brenan, who, after a moment's examination, determined what to do. He said the nasal bone was involved and diseased, and that there would have to be a portion of it removed. He at once removed the bone tumor containing the ulcer; also the diseased portion of bone and pituatory gland and cured the catarrh. I am now perfectly well and as free from disease as ever I was in my life.

DR. PAUL M. BRENAN—*Dear Sir*: I take great pleasure in stating for the benefit of those who are afflicted with any chronic disease, that *I am now a well man*. For the past two years I have been under the medical treatment of different physicians, from which I have received no benefit. I have been suffering with general and nervous debility, a difficulty in my stomach, and at times dizziness and severe headache almost incapacitating me for work. About three weeks ago I put myself under your care, and I can say with delight that I am cured and feel like myself again, after having taken of your skillful treatment.
